

Are you an employee working in Health Care overseas? Read below

- In accordance with local policy and procedures (agreed with MOD), and depending on the location and local Command arrangements, any safeguarding concerns are to be escalated to one of the following:
- Their named safeguarding supervisor
- The local social care agency (available 24hrs)
- The named nurse for safeguarding
- The police, in cases of significant harm or a danger of significant harm

The Director of Community Healthcare Operations should be advised of any serious incident at the earliest opportunity.
